St. Pete-Clearwater International Airport (PIE) Main Entry/Traffic Light Relocation, Parking and Roadway Impacts

As a result of the Gateway Express Project* by the Florida Department of Transportation, the Main Entrance and Traffic Light to enter/exit St. Pete-Clearwater Int'l will be relocated beginning February 28th. The entrance, exit and roadways to PIE's parking lots and facilities will be moved. Please note the following key impacts:

- The Main Traffic Light and Entry/Exit from the Airport is being relocated by the Air Traffic Control Tower.
- Direct access from 46th Street to Airport Parkway will no longer be available. Visitors must use the main entrance to the airport at the new traffic light.
- For access to Key Lime PIE Economy Parking Lot and Airport Employee Parking Lots turn onto 144th Ave.
- The Strawberry PIE Economy Parking Lot will only be accessible on PIE's internal roadways by taking Airport Parkway to Fairchild Drive.
- **Please plan extra travel time to accommodate construction in and around the airport. We apologize for the inconvenience.** Parking Lot shuttles may have longer wait and route times to get to/from economy parking lots to the terminal.

Additionally, PIE's Ground Transportation Lot closed February 11th for approximately 30-60 days as part of the ongoing Airport Parking and Roadway Project. Airport ground transportation and hotel, super shuttle and off-site rental car shuttle providers will pick-up passengers in front of the terminal. Beginning February 18th, PIE's Short-term Parking Lot closed for approximately six months. Visitors are encouraged to use the cell phone lot for awaiting passenger pick-up or the long-term parking lot. For airport information, call 727-453-7800.
